School Projects

Airport Check-in Service (User Empathy & Research)
Timelapse - 4 days
Delivered a specific group of costumers and airline
we had to deliver a prototype to satisfy the costumers.
This project was done in groups, we worked with
different methods such as paper prototyping,
User Journey, User Research and final prototype
was made using Figma. (Project details in portfolio)

Redo School Website (User Testing & Simplicity)
Timelapse - 4 days
Creating a better version of our own school website.
User testing current website to generate a better
prototype, Making a persona with our research other
methods such at "HMW" questions, User Cases,
Wireframes, Prioritizing new features for website and
final prototype in Figma. Afterwards more user testing
remote testing & in person. (Project details in portfolio)
